

Residential Preparation Checklist for Rodent Service

Prior to the initial service, the following steps should be performed by the customer to enable the service specialist to perform the most thorough treatment possible. This preparation is not required for subsequent service unless requested by your service specialist.

KITCHEN

- Remove all items (dishes, glassware, utensils, food, cleaning supplies, etc.) from BOTTOM cabinets ONLY and storage areas.
- Keep floor areas clear.
- Empty all trash cans. Remove paper grocery bags from kitchen area.
- Provide access to perimeter of room by moving things away from wall and provide at least 6 inches.

BATHROOM

- Remove all items from the bottom of vanity.
- Remove all items from storage cabinets and drawers.
- Provide access to perimeter of room by moving things away from wall and provide at least 6 inches.

BEDROOM

- Move all items from closet floor areas and closet shelving.
- Keep floor areas clear.
- Provide access to perimeter of room by moving things away from wall and provide at least 6 inches

EXTERIOR

- Move all pet food, water dishes, pet toys and children's toys away from the perimeter of the house.
- Trim grass and weeds around the perimeter of the house.
- Remove all debris (leaves, clippings, sticks, boards, etc.) from the perimeter of the house.

PETS

- Arrange to have pets secured and away from technicians until service is performed.

Thank you for your cooperation
